

1. General description

Planar passivated Silicon Controlled Rectifier (SCR) in a TO252 (DPAK) surface mountable plastic package intended for use in applications requiring high bidirectional blocking voltage, High surge current capability and high thermal cycling performance.

2. Features and benefits

- High bidirectional blocking voltage capability
- High surge current capability
- High thermal cycling performance
- Surface mountable package

3. Applications

- Ignition circuits
- Motor control
- Protection circuits
- Voltage regulation
