

# Coaxial Reflectionless Low Pass Filter

## ZXLF Series

50Ω

DC to 11 GHz

## The Big Deal

- Patented design terminates Stopband signals
- Stopband up to 35 GHz
- High Stopband rejection, up to 50 dB

## Product Overview

Mini-Circuits' ZXLF Series reflectionless filters employs a novel filter topology which absorbs and terminates stop band signals internally rather than reflecting them back to the source. Reflectionless filters eliminate stopband reflections, allowing them to be paired with sensitive devices and used in applications that otherwise require circuits such as isolation amplifiers or attenuators. This is developed in a new broadband, stable connectorized package.

## Key Features

Feature	Advantages
Easy integration with sensitive reflective components, e.g. mixers, multipliers	Reflectionless filters absorb unwanted signals, preventing reflections back to the source. This reduces generation of additional unwanted signals without the need for extra components like attenuators, improving system dynamic range.
Cascadable	Reflectionless filters can be cascaded in multiple sections to provide sharper and higher attenuation, while also preventing any standing waves that could affect pass band signals.
Excellent stability over temperature	Minimal variation in electrical performance across temperature.
Operating temperature up to 105°C	Suitable for operation close to high power components.
Broadband connectorized package	The connectorized package works well even in high frequencies and easy to interface with other devices. This is well suited for test setups.

### Notes

- A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.  
B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.  
C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at [www.minicircuits.com/MCLStore/terms.jsp](http://www.minicircuits.com/MCLStore/terms.jsp)

# Low Pass Filter

# ZXLF-K132H+

50Ω DC to 1300 MHz

Generic photo used for illustration purposes only

CASE STYLE: UK3042  
Connectors Model  
2.92mm-F ZXLF-K132H+

## Features

- Match to 50Ω in the stop band, eliminates undesired reflections
- Cascadable
- Temperature stable, up to 105°C
- Protected by US Patents 8,392,495; 9,705,467, additional patent pending
- Protected by China Patent 201080014266.1
- Protected by Taiwan Patent I581494

## Applications

- Aerospace & Defense
- CATV
- DOCSIS 3.1
- TCAS

## Electrical Specifications at 25°C

Parameter	F#	Frequency (MHz)	Min.	Typ.	Max.	Unit
Pass Band	Insertion Loss	DC-F1	DC- 1300	-	2.6	3.4 dB
	Freq. Cut-off	F2	1860	-	3.7	dB
	VSWR	DC-F1	DC- 1300	-	1.3	:1
Stop Band	Rejection	F3-F4	2700 - 3000	12	30	- dB
		F4-F5	3000 - 10000	30	45	- dB
		F5-F6	10000 - 19000	-	45	- dB
	VSWR	F3-F4	2700 - 3000	-	1.3	- :1
		F4-F5	3000 - 10000	-	1.3	- :1
		F5-F6	10000 - 19000	-	2.3	- :1

## Absolute Maximum Ratings<sup>3</sup>

Parameter	Ratings
Operating Temperature	-55°C to +105°C
Storage Temperature	-55°C to +105°C
RF Power Input, Passband (DC-F1) <sup>1</sup>	7.9W at 25°C
RF Power Input, Stopband (F2-F6) <sup>2</sup>	1.58W at 25°C

<sup>1</sup> Passband rating derates linearly to 3.9W at 105°C ambient

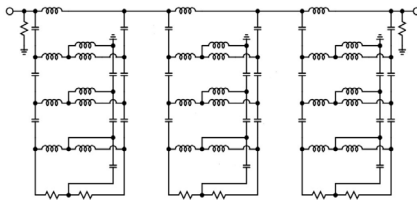

<sup>2</sup> Stopband rating derates linearly to 0.75W at 105°C ambient

<sup>3</sup> Permanent damage may occur if any of these limits are exceeded

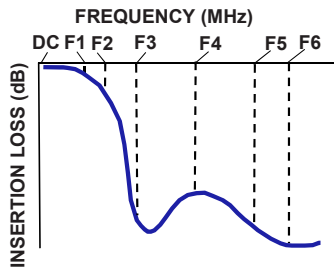

## ESD rating

Human body model (HBM): Class 1A (Pass 250 V) in accordance with ANSI/ESD 5.1-2001

## Functional Schematic

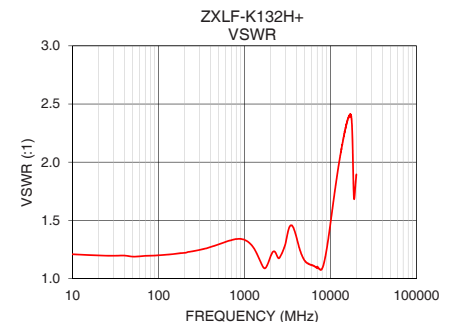

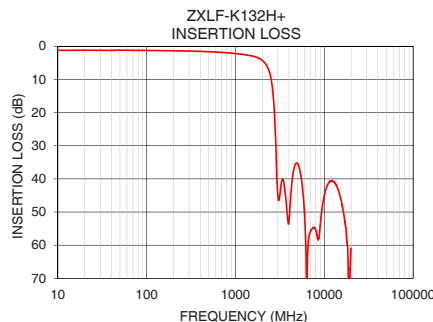

## Typical Frequency Response

## Typical Performance Data at 25°C

Frequency (MHz)	Insertion Loss (dB)	VSWR (:1)
1	1.23	1.21
10	1.24	1.21
100	1.27	1.20
200	1.36	1.22
500	1.64	1.29
800	1.97	1.34
1000	2.20	1.33
1300	2.58	1.26
1860	3.71	1.12
2700	17.36	1.21
2750	20.86	1.22
2850	30.97	1.25
3000	45.23	1.30
5000	35.43	1.15
10000	44.88	1.48
11000	41.52	1.70
15000	45.10	2.30
18000	59.11	2.20
19000	76.06	1.70
20000	60.91	1.89

**+RoHS Compliant**

The +Suffix identifies RoHS Compliance. See our web site for RoHS Compliance methodologies and qualifications
