Description

L-com's LCCA30066-FT6 is a MMCX plug to MMCX plug right angle cable assembly using RG178 coax, 6 FT and ships same-day. The RG178 coax of this MMCX cable uses the PTFE dielectric with a VoP of 70%. These flexible RF cable assemblies are ideal for applications where flexure is required. Our L-com MMCX to MMCX cable assembly has a plug to plug gender configuration with flexible RG178 series coax and operates to 3 GHz. The shielding of this MMCX cable is comprised of silver plated copper braid. This right angle MMCX cable interface on the RG178 coax allows for easier connections in tight spaces.

Custom versions of this MMCX plug to MMCX plug cable, along with the rest of L-com's other RF assemblies, can also be built and shipped same day. Other available RF cable assembly value added services from L-com include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly. Contact a sales representative for testing or custom RF cable quotes.
