A	Dept	晨翔2.54mm拨码开关, 3PIN, 插板, 黑色胶芯, 白色推钮, 红色盖子, 端子镀金								REV.	DESCRIPTION		DRAWN		CHECKED		APPROVED																																																					
	Qty									A	NEW RELEASE		JLZ 07/13/24'																																																									
	DC	1																																																																				
	ED	1																																																																				
	IE	1																																																																				
B	ISO	1																																																																				
	PD	1																																																																				
	R&D	1																																																																				
	SD	1																																																																				
	QA	1																																																																				
C	QC	1																																																																				
	QE	1																																																																				
	晨翔料号: DS1040-03RN																																																																					
	备注:																																																																					
	1. 电性说明:																																																																					
1.1 接触阻抗: 100毫欧最大																																																																						
1.2 耐压: 500伏交流电一分钟																																																																						
1.3 绝缘阻抗: 100兆欧最小																																																																						
1.4 额定电流: 25毫安																																																																						
1.5 额定电压: 24V DC																																																																						
2. 环境特性:																																																																						
2.1 工作温度: -40~+85° C																																																																						
3. 材料:																																																																						
3.1 端子: 磷铜, 镍底镀金																																																																						
3.2 胶芯、盖子及推钮: PBT, 黑色、红色、白色																																																																						
D																																																																						
	PCB孔位布局参考 公差: ±0.05
