						1. 电性说明:																																																															
						1.1 接触阻抗: 100毫欧最大																																																															
D						1.2 耐压: 500伏交流电一分钟					D																																																										
						1.3 绝缘阻抗: 100兆欧最小																																																															
						1.4 额定电流: 25毫安																																																															
						1.5 额定电压: 24V DC																																																															
						2. 环境特性:																																																															
E						2.1 工作温度: -40~+85° C					E																																																										
						3. 材料:																																																															
						3.1 端子: 磷铜, 镍底镀金																																																															
						3.2 胶芯、盖子及推钮: PBT, 黑色、红色、白色																																																															
						电路图																																																															
F						PCB孔位布局参考					F																																																										
						公差: ±0.05
