## **SIEMENS**

## **Data sheet**

STARTER, 3RE41228AA314BB0, WITH MODS

| product brand name                                                      | Siemens                         |
|-------------------------------------------------------------------------|---------------------------------|
| product designation                                                     | Non-reversing motor starter     |
| special product feature                                                 | Start-Stop Push Buttons         |
| General technical data                                                  |                                 |
| weight [lb]                                                             | 8 lb                            |
| Height x Width x Depth [in]                                             | 11 × 7 × 5 in                   |
| touch protection against electrical shock                               | NA for enclosed products        |
| installation altitude [ft] at height above sea level maximum            | 6 560 ft                        |
| ambient temperature [°F] during storage                                 | -22 +149 °F                     |
| ambient temperature [°F] during operation                               | -4 +104 °F                      |
| ambient temperature during storage                                      | -30 +65 °C                      |
| ambient temperature during operation                                    | -20 +40 °C                      |
| country of origin                                                       | Germany                         |
| Power and control electronics                                           |                                 |
| number of poles for main current circuit                                | 3                               |
| type of voltage of the control supply voltage                           | AC                              |
| control supply voltage                                                  |                                 |
| <ul> <li>at AC at 50 Hz rated value</li> </ul>                          | 110 V                           |
| at AC at 60 Hz rated value                                              | 120 V                           |
| disconnector functionality                                              | No                              |
| yielded mechanical performance [hp] for 3-phase AC motor                |                                 |
| • at 200/208 V rated value                                              | 10 hp                           |
| • at 220/230 V rated value                                              | 10 hp                           |
| • at 460/480 V rated value                                              | 25 hp                           |
| • at 575/600 V rated value                                              | 25 hp                           |
| Contactor                                                               |                                 |
| number of NO contacts for main contacts                                 | 3                               |
| operating voltage for main current circuit at AC at 60 Hz maximum       | 600 V                           |
| operating voltage at AC-3 rated value maximum                           | 600 V                           |
| mechanical service life (operating cycles) of the main contacts typical | 30 000 000                      |
| Auxiliary contact                                                       |                                 |
| number of NC contacts for auxiliary contacts                            | 1                               |
| number of NO contacts for auxiliary contacts                            | 1                               |
| number of total auxiliary contacts maximum                              | 8                               |
| contact rating of auxiliary contacts of contactor according to UL       | 10A@600V(A600), 2.5A@600V(Q600) |
| Coil                                                                    |                                 |
| apparent pick-up power of magnet coil at AC                             | 79 VA                           |
| apparent holding power of magnet coil at AC                             | 8.5 VA                          |
| operating range factor control supply voltage rated value of            | 0.8 1.1                         |

| magnet coil                                                                                                                       | 9 40 mg                                                |
|-----------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| ON-delay time                                                                                                                     | 8 40 ms                                                |
| OFF-delay time                                                                                                                    | 4 16 ms                                                |
| Overload relay                                                                                                                    |                                                        |
| product function                                                                                                                  | Vaa                                                    |
| overload protection                                                                                                               | Yes                                                    |
| • test function                                                                                                                   | Yes                                                    |
| external reset                                                                                                                    | Yes                                                    |
| reset function                                                                                                                    | Manual, automatic and remote (with optional accessory) |
| adjustment range of thermal overload trip unit                                                                                    | 14 20                                                  |
| number of NC contacts of auxiliary contacts of overload relay                                                                     | 1                                                      |
| number of NO contacts of auxiliary contacts of overload relay contact rating of auxiliary contacts of overload relay according to | 5A@600VAC (B600), 1A@250VDC (R300)                     |
| UL                                                                                                                                | 3A@0007AC (B000), 1A@2307BC (1300)                     |
| Enclosure                                                                                                                         |                                                        |
| degree of protection NEMA rating of the enclosure                                                                                 | NEMA 1 standard size enclosure                         |
| design of the housing                                                                                                             | indoors, usable on a general basis                     |
| Mounting/wiring                                                                                                                   |                                                        |
| mounting position                                                                                                                 | vertical                                               |
| fastening method                                                                                                                  | Surface mounting and installation                      |
| type of electrical connection for supply voltage line-side                                                                        | Screw-type terminals                                   |
| tightening torque [lbf-in] for supply                                                                                             | 18 21 lbf·in                                           |
| type of connectable conductor cross-sections at line-side for AWG cables single or multi-stranded                                 | 2x (16 12), 2x (14 8)                                  |
| temperature of the conductor for supply maximum permissible                                                                       | 60 °C                                                  |
| material of the conductor for supply                                                                                              | CU                                                     |
| type of electrical connection for load-side outgoing feeder                                                                       | Screw-type terminals                                   |
| tightening torque [lbf-in] for load-side outgoing feeder                                                                          | 18 21 lbf·in                                           |
| type of connectable conductor cross-sections for AWG cables for load-side outgoing feeder single or multi-stranded                | 2x (16 12), 2x (14 8)                                  |
| temperature of the conductor for load-side outgoing feeder maximum permissible                                                    | 60 °C                                                  |
| material of the conductor for load-side outgoing feeder                                                                           | CU                                                     |
| type of electrical connection of magnet coil                                                                                      | Screw-type terminals                                   |
| tightening torque [lbf·in] at magnet coil                                                                                         | 7 10 lbf-in                                            |
| type of connectable conductor cross-sections of magnet coil for AWG cables single or multi-stranded                               | 2x (16 12), 2x (14 8)                                  |
| temperature of the conductor at magnet coil maximum permissible                                                                   | 75 °C                                                  |
| material of the conductor at magnet coil                                                                                          | CU                                                     |
| type of electrical connection for auxiliary contacts                                                                              | Screw-type terminals                                   |
| tightening torque [lbf·in] at contactor for auxiliary contacts                                                                    | 7 10 lbf·in                                            |
| type of connectable conductor cross-sections at contactor for AWG cables for auxiliary contacts single or multi-stranded          | 2x (20 16), 2x (18 14)                                 |
| temperature of the conductor at contactor for auxiliary contacts maximum permissible                                              | 75 °C                                                  |
| material of the conductor at contactor for auxiliary contacts                                                                     | CU                                                     |
| type of electrical connection at overload relay for auxiliary contacts                                                            | Screw-type terminals                                   |
| tightening torque [lbf·in] at overload relay for auxiliary contacts                                                               | 7 10 lbf·in                                            |
| type of connectable conductor cross-sections at overload relay for AWG cables for auxiliary contacts single or multi-stranded     | 2x (20 16), 2x (18 14)                                 |
| temperature of the conductor at overload relay for auxiliary contacts maximum permissible                                         | 70 °C                                                  |
| material of the conductor at overload relay for auxiliary contacts                                                                | CU                                                     |
| Short-circuit current rating                                                                                                      |                                                        |
| design of the fuse link for short-circuit protection of the main circuit required                                                 | Class J                                                |
| design of the short-circuit trip                                                                                                  | Thermal magnetic circuit breaker                       |
| maximum short-circuit current breaking capacity (Icu)                                                                             |                                                        |
| • at 240 V                                                                                                                        | 5 kA                                                   |
| • at 480 V                                                                                                                        | 5 kA                                                   |
| ● at 600 V                                                                                                                        | 5 kA                                                   |
| certificate of suitability                                                                                                        | UL 60947-4-1                                           |
