

NEW

0.5mm pitch stroke connector conforming to USB2.0 Standard

CONNECTOR

MB-0111-5

November 2006

DD1 Series

RoHS Compliant

[Plug]

Reverse type

Standard type
[Receptacle]

Angle type

Tilted type

[Cradle]

The DD1 series of connectors are single-line rectangular I/O connectors with 0.5mm pitch stroke conforming to USB2.0 Standard.

Features

- Enhanced twisting resistance at mating/ unmating through equipping a guide rail
- Secure ground connection for EMI prevention
- Conforms to transmission specified in USB2.0 Standard
- PB free

Receptacle

- Occupied volume on chassis was considered at design and small package was achieved.
- Available in standard and reverse mounting type to respond to various mounting situations.
- Hot-plug structure
- Available on embossed tape for automatic mounting

Cradle

- Available in two types. Angle type, which expands cradle designing capacity, and tilted type, slanted at a 75 degree angle to the board.
- 13.8mm depth was achieved, which enables minimizing the occupied area on PCB
- Alignment guide structure: guide range of 1.0mm min. (receptacle ↔ cradle)
- Angle type available on embossed tape for automatic mounting.
Tilted type available in exclusive tray.

Plug

- Side-lock type
- Simple part structure enables simple wire termination.
- Standard cable diameter 5.0mm. Cables with other diameters can also be applied.

General Specifications

- | | |
|---|---|
| ■No. of contacts : 30 pos. | ■Rated current: for signal 0.5A |
| ■Contact resistance:
50m ohm max. (initial) | for power 1.0A |
| ■Dielectric withstanding voltage :
DC500V per minute | ■Rated voltage: AC 30Vr.m.s |
| ■Insulation resistance:
1,000M ohm min. (initial) | ■Operating temperature:
-25 Deg. C to +75 Deg. C |
| | ■Mating cycle: 10,000 times |

Materials and Finishes

Receptacle

Components	Materials/ Finishes
Contact	Copper alloy/ Contact: Au plating over Ni Terminal: Au flash plating over Ni
Insulator	Glass filled nylon resin
Shell	Stainless steel/ Sn plating over Ni

Cradle

Components	Materials/ Finishes
Contact	Copper alloy/ Contact: Au plating over Ni Terminal: Au flash plating over Ni
Insulator	Glass filled nylon resin
Shell	Stainless steel/ Main frame: Ni plating Through-hole: Sn plating over Ni
Through-hole Plate	Copper alloy/ Main frame: Ni plating Through-hole: Sn plating over Ni

Plug

Components	Materials/ Finishes
Contact	Copper alloy/ Contact: Au plating over Ni Terminal: Au flash plating over Ni
Insulator	Glass filled nylon resin
Shell	Stainless steel/ Ni plating
Hood	Glass filled polycarbonate/ Color: Black
Lock Spring	Stainless steel/ Ni plating
Clamp Barrel	Copper alloy/ Ni plating
Bushing	PVC/ Color: Black

Plug: DD1P030MA1

SJ Drawing No.: SJ100603

Unit: [mm]

Note) The plug is shipped in plug only.
Exclusive crimp tool CT150-6-RH07
(applicable cable diameter 5.0 mm) is
needed for wire connection and assembly.

Please contact us for other cable
diameters and further information.

Notice: Products shown in this leaflet are made for the applications listed below. However, if the above-mentioned products are to be used in aerospace devices, marine cable-connection devices, atomic power control systems, medical equipment for life-support systems, or any other specific application requiring extremely high reliability, please contact JAE for further information.

Recommended applications: computers, office machines, measuring devices, telecommunication devices (terminals, mobile devices), AV devices, household applications, FA devices, etc.
