

MTPD121625D65

Beidou Multiplexer Filter

MECSINE兆讯

Applications

1. Beidou short message handheld antenna
2. Individual-soldier system antenna
3. Satellite communications

Features

1. Low Insertion Loss 2dB typ based on LTCC.
2. High Isolation.
3. Small Size 6.35 X 5.08 X 1.4mm³
4. Excellent high-power capacity up to average 20 watts

Description

The MTPD121625D65 is a high performance band pass multiplexer filters in an easy to use surface mount package. It can be used where need three band pass filters and a triplexer. It is easy to use with small PCB space. The MTPD121625D65 is constructed from LTCC which possess excellent electrical and mechanical stability. All components are 100% RF tested.

Characteristics 1)

Part No.	Freq. Rang (GHz)	Insertion Loss (dB)	Attenuation (dB)	Return Loss (dB)
MTPD121625D65	1176-1278	2.5	-25@1559-1621&2480-2496	-10
	1559-1621	2.0	-25@1176-1278&2480-2496	-10
	2480-2496	2.0	-25@1176-1278&1559-1621	-10

1) All the above data are based on specified demo board and tested in 25° environment.
