

RoHS (Restriction on use of Hazardous Substances) Statement

Maxim Integrated semiconductor products designated as RoHS compliant meet the applicable substance threshold requirements of Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (also known as “RoHS Recast”) and its amendments, including the Commission Delegated Directive (EU) 2015/863 of 31 March 2015 amending Annex II.

RoHS Restricted Substance	Maximum Limit
Lead (Pb)	1000 ppm (0.1 w/w%)
Mercury (Hg)	1000 ppm (0.1 w/w%)
Cadmium (Cd)	100 ppm (0.01 w/w%)
Hexavalent Chromium (Cr6+)	1000 ppm (0.1 w/w%)
Poly Brominated Biphenyls (PBB)	1000 ppm (0.1 w/w%)
Poly Brominated Diphenyl ethers (PBDE)	1000 ppm (0.1 w/w%)
Bis(2-ethylhexyl) phthalate (DEHP)	1000 ppm (0.1 w/w%)
Butyl benzyl phthalate (BBP)	1000 ppm (0.1 w/w%)
Dibutyl phthalate (DBP)	1000 ppm (0.1 w/w%)
Diisobutyl phthalate (DIBP)	1000 ppm (0.1 w/w%)

In RoHS compliant products, where the amount of Lead exceeds the threshold limit but are compliant to the RoHS Directive using an exemption, one or more of the following EU exemptions may apply: 7(a), 7(c)-I, 15/15a.

RoHS Compliant Designation:

- Products that are Lead Free and RoHS Compliant contain a “+” in the package code
- Products that contain Lead but are compliant using a RoHS exemption contain a “#” in the package code.
- Product Material content can be found at:
<https://www.maximintegrated.com/en/support/emmi/content-lookup.html>

In determining the RoHS status of its products, Maxim Integrated has taken commercially reasonable steps to provide representative and accurate material content information. Maxim relies on information provided by its suppliers and subcontractors. This statement including material composition data are valid and accurate to the best of our knowledge.
