

## Plug-in connectors

Plug-in connector M12 for assembly in the field, d-coded

- Cat.5
- IP67

**Use:**

For assembly of your Ethernet cables in harsh industrial environments.

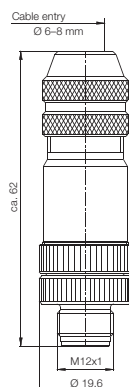

Assemble your 4-core cable exactly at the place of use.

### The benefits for you:

- When routing the cable, you can guide it through tight spaces without the connector causing difficulties.
- You can achieve the cable length you need quickly and flexibly without having to take a large selection of pre-assembled cables of different lengths with you.
- The connecting cable is of exactly the right length and you avoid cable loops.

### Pin assignment M12

TD+	 yellow	Pin 1
RD+	 white	Pin 2
TD-	 orange	Pin 3
RD-	 blue	Pin 4
