

H/I-Series

Toggle Switches

PRODUCT WEBPAGE

request sample, configure part

General purpose workhorses with options tailored to meet most any need. Ratings to 17A 125VAC, various actuator, bushing, termination, and circuit choices allow this toggle to easily integrate into a variety of different applications. The H/I-Series is appropriate for usage in low voltage DC applications.

3-4
Poles

3-17
Amps

125, 250, 600
VAC

12-24
VDC

Typical Applications

- Marine
- Food Service
- Generator
- Industrial Control
- Office Automation

Tech Specs

Dielectric Strength

UL/CSA: 1000V - live to dead
metal parts

Electrical Life

50,000 cycles - maintained
25,000 cycles - momentary

Operating Temperature

32°F to 185°F (0° to 85°C)

4. TERMINATION/FUNCTION

1, 4

Function	Solder Lug	.250 Tab (QC)	.205 Tab (QC)	.187 Tab (QC)	Screw Term.	Wire Lead	PC Term.	Combi Term
ON-NONE-OFF	0	1	2	3	4	5	6	7
(ON)-NONE-OFF	A	B	C	D	E	F	G	H
ON-NONE-(OFF)	L	M	Q	R	S	T	U	Y
ON-NONE-ON	0	1	2	3	4	5	6	7
ON-NONE-(ON)	A	B	C	D	E	F	G	H
ON-OFF-ON	0	1	2	3	4	5	6	7
ON-OFF-(ON)	A	B	C	D	E	F	G	H
(ON)-OFF-(ON)	L	M	Q	R	S	T	U	Y

5. TOGGLE STYLE

8

Bat Style Toggle	Toggle with Neoprene Seal	Toggle Length	Bushing Length
73	78	.687	.465
NBL3	NBL8	.687	.465
NWH3	NWD8	.687	.465
NRD3	NRD8	.687	.465

Notes:

- Standard wire lead length is 6". For other wire lead lengths, Use wire lead termination/function code and add "/" and the wire lead length required at the end of the part number.. Example: HK255-73/10"
- Hardware/Packaging Options may be added to the base part number by adding a "/" with the option at the end of the part number.
Example: HL251-73 / HDW ASSM
Available options include:
2 Hex
No Hardware
HDW ASSM
HDW bulk
Poly
2 Hex nuts (1 assembled on switch, 1 Supplied in bulk)
No Hardware included
With Hardware assembled
With Hardware bulk
With Polybag
- The nbl3 and nbl8 toggle uses a black oxide plated metal bushing. Nwh and nrd toggles use nickel plated metal bushings. Nbl, nwh, and nrd toggles use a four pole base with pole 3 empty.
- () indicates momentary function.
- Maintained or Momentary action of the switch is determined by the combination of the circuit and termination/function designation of the description.
Example: HK25B-73 is a (ON)-OFF circuit with .250 TAB Terminals.
- Combi-terminals are only available with ratings 25 & 27 with screws and saddle Clamps Supplied in bulk.
- Screw terminals are supplied with screws assembled to terminals.
- Nylon toggles are not available with momentary circuits.
- The "o" circuit is a reversing circuit with jumpers from terminal 1 to 6, 3 to 4, and terminal 7 to 9. Terminals are located at 1, 2, 3, 4, 5, 6, 7, 8, and 9.
- The "o" circuit is not available with pc or combi terminals.
- A special "o" circuit is a reversing circuit called out with a "j" following the termination/function digit in the description. Jumpers are from terminal 1 to 5, 3 to 5, 4 to 9 and 6 to 7. Terminals are located at 2, 3, 6, and 9 with a double terminal at 8.
- Special "O" circuit only available with .250 Tab terminals. Example: H0251J-73
- When the switch circuit is not ul or csa approved, the rating code in the item master file will be 000, no matter what the rating code call out is in the switch description.

About Carling

Founded in 1920, Carling Technologies is a leading manufacturer of electrical and electronic switches and assemblies, circuit breakers, electronic controls, power distribution units, and multiplexed power distribution systems. With six ISO9001 and IATF16949 registered manufacturing facilities and technical sales offices worldwide, Carling Technologies Sales, Service and Engineering teams do much more than manufacture electrical components, they engineer powerful solutions! To learn more about Carling please visit www.carlingtech.com/company-profile.

To view all of Carling's environmental, quality, health & safety certifications please visit www.carlingtech.com/environmental-certifications.
