

Technical drawing of a mechanical part (Fig. 1.10) showing a cross-section. The drawing includes the following dimensions and features:

- Overall width: 5.3 ± 0.15
- Width of the central section: 0.65 ± 0.05
- Height of the central section: 3.1
- Surface texture symbol: A square box containing a semi-circle and the value 0.10 .

Figure 1: PCB layout diagram for the applicable circuit board. The diagram shows a rectangular board with dimensions 1.50, 2.50, 2.45±0.05, 5.10, 1.50, 0.8, 0.50±0.05, 0.35±0.05, and A±0.05. A central row of 20 vertical slots is labeled 'CONN.' with a leader line. The board has two rectangular cutouts at the top corners, each with a width of 1.50 and a height of 2.50. The bottom edge has a total width of 2.45±0.05. The left edge has a total height of 5.10. The right edge has a total width of 1.50. The bottom edge has a total height of 0.8. The bottom edge has a total width of 0.50±0.05. The bottom edge has a total height of 0.35±0.05. The bottom edge has a total width of A±0.05.
