

# MBC120 Series

Low Profile

Open Frame Power Supplies

Medical

The MBC120 Series of open frame medical power supplies feature a wide universal AC input range of 85 V – 264 VAC, offering 120 W of output power in a compact footprint, with a variety of isolated single output voltages.

The MBC series is designed and approved to the latest Medical standards (EN/IEC 60601-1), providing 2 x MOPP isolation for Class I & Class II applications.

These power supplies are ideal for medical, telecom, datacom, industrial equipment and other applications.

## Key Features & Benefits

- 3 x 2 Inch Footprint
- 120 Watts with Forced Air Cooling
- Approved to EN/IEC 60601-1
- Efficiencies up to 93%
- -40 To 70°C Operating Temperature (85°C operating temperature available on request)
- Dual Fusing
- Suitable for BF Applications
- Means of Protection: 2x MOPP
- Thermal Shut-Down Feature
- >3.00 Million Hours, Telcordia -SR332-Issue 3
- No Load Power < 0.3 W
- Class II Option Available
- RoHS Compliant
- CE Marked

## Applications

- Diagnostic
- Drug Pump
- Dialysis
- Home Health Care
- Monitoring
- Portable Equipment

## 1. MODEL SELECTION

| MODEL NUMBER <sup>1</sup>    | DESCRIPTION                    | VOLTAGE | MAX. LOAD  |         | POWER |
|------------------------------|--------------------------------|---------|------------|---------|-------|
|                              |                                |         | CONVECTION | 300 LFM |       |
| MBC120-1T12L<br>MBC120-1012L | Screw Terminal<br>Molex Header | 12 V    | 8.33 A     | 10.0 A  | 120 W |
| MBC120-1T15L<br>MBC120-1015L | Screw Terminal<br>Molex Header | 15 V    | 6.66 A     | 8.0 A   | 120 W |
| MBC120-1T24L<br>MBC120-1024L | Screw Terminal<br>Molex Header | 24 V    | 4.16 A     | 5.0 A   | 120 W |
| MBC120-1T30L<br>MBC120-1030L | Screw Terminal<br>Molex Header | 30 V    | 3.33 A     | 4.0 A   | 120 W |
| MBC120-1T48L<br>MBC120-1048L | Screw Terminal<br>Molex Header | 48 V    | 2.08 A     | 2.5 A   | 120 W |
| MBC120-1T58L<br>MBC120-1058L | Screw Terminal<br>Molex Header | 58 V    | 1.72 A     | 2.07 A  | 120 W |
| COVER-120-XBC <sup>2</sup>   | Metal cover kit accessory      |         |            |         |       |

<sup>1</sup> For Class II version contact Bel sales representative.

<sup>2</sup> When used in Cover Kit, de-rate output power to 70 % under all operating conditions.

## 2. INPUT SPECIFICATIONS

Specifications are for nominal input voltage, 25°C unless otherwise stated.

| PARAMETER           | DESCRIPTION / CONDITION                            | SPECIFICATION               |
|---------------------|----------------------------------------------------|-----------------------------|
| Input Voltage       | Universal (see derating under output power)        | 85 – 264 VAC / 390 VDC      |
| Input Frequency     |                                                    | 47 – 63 Hz                  |
| Input Current       | 115 VAC:<br>230 VAC:                               | 1.2 A max.<br>0.65 A max.   |
| No Load Power       | Typical                                            | < 0.3 W                     |
| Inrush Current      | 115 VAC:<br>230 VAC:<br>264 VAC:                   | 25 A<br>45 A<br>75 A        |
| Leakage Current     | Typical (N/A for Class II Option)<br>Touch current | 300 $\mu$ A<br><100 $\mu$ A |
| Power Factor        | With full load, active PFC                         | > 0.95                      |
| Switching Frequency | Typical                                            | 60 KHz                      |

<sup>3</sup> Functional, not approved.

### 3. OUTPUT SPECIFICATIONS

| PARAMETER                 | DESCRIPTION / CONDITION                                                                  | SPECIFICATION        |
|---------------------------|------------------------------------------------------------------------------------------|----------------------|
| Output Voltage            | Refer to Model selection table                                                           | From 12 V to 58 V    |
| Output Power              | Forced cooling (with 300 LFM) <sup>4</sup>                                               | 120 W                |
|                           | Convection cooling for input 100 – 264 VAC:<br>(de-rate linearly to 80 W @ 85 VAC)       | 100 W                |
| Efficiency                | 48 V, 58 V:                                                                              | 93%                  |
|                           | 24 V, 30 V:                                                                              | 91%                  |
|                           | 12 V, 15 V:                                                                              | 90%                  |
| Hold-up Time              | Typical                                                                                  | >10 ms               |
| Line Regulation           |                                                                                          | +/-0.5%              |
| Load Regulation           |                                                                                          | +/-1%                |
| Minimum Load              |                                                                                          | 0.0 A                |
| Transient Response        | 25% step load change, at 0.1A/uS slew rate,<br>50% duty cycle, 50 Hz = 4%                | recovery time < 5 ms |
| Ripple <sup>5</sup>       | For all outputs                                                                          | 1.0 % max.           |
| Output Voltage Adjustment |                                                                                          | +/-3%                |
| Rise Time                 | Typical                                                                                  | 55 ms                |
| Set Point Tolerance       |                                                                                          | +/-1%                |
| Over Current Protection   |                                                                                          | > 110%               |
| Over Voltage Protection   | Latch type (AC recycling required)                                                       | 110 to 140%          |
| Short Circuit Protection  | Hiccup mode                                                                              |                      |
| Cooling                   | With 300 LFM Forced cooling <sup>4</sup>                                                 | up to 120 W          |
|                           | With Convection cooling (for input 100 – 264 VAC)<br>(de-rate linearly to 80 W @ 85 VAC) | up to 100 W          |

<sup>4</sup> Refer to Mechanical Drawing

<sup>5</sup> Ripple is peak to peak with 20 MHz bandwidth and 10 µF (Electrolytic capacitor) in parallel with a 0.1 µF capacitor at rated line voltage and load ranges.

### 4. EMC SPECIFICATIONS

| PARAMETER                          | DESCRIPTION / CONDITION                                         | SPECIFICATION        |
|------------------------------------|-----------------------------------------------------------------|----------------------|

|                     |     |                         | V1 +VE     |                           | Tyco-2-1776112-4                                                    |
|                     |     |                         |            | Molex Header (Option 2)   | Molex: 1722861104                                                   |
|                     |     |                         |            |                           | (Mating conn: Molex 1722561004, Molex 1722561104, Molex 1722563104) |

Convection load: 100 W up to 50 °C  
De-rate above 50 °C @ 2.5% per °C  
Up to 85°C operating temperature

Forced air cooled load: 120 W up to 50°C  
De-rate above 50 °C @ 2.5% per °C  
Up to 85°C operating temperature

Convection load: 70W up to 50 °C  
De-rate above 50 °C @ 2.5% per °C

## 8. MECHANICAL SPECIFICATIONS

| PARAMETER  | DESCRIPTION / CONDITION                   |
|------------|-------------------------------------------|
| Weight     | 200 g                                     |
| Dimensions | 76.2 x 50.8 x 30.1 mm (3 x 2 x 1.18 inch) |

**NOTES:** In case the PCB is mounted in a metal enclosure, using metal hardware ensure the following:

- 1 Stand off, used to mount PCB has OD of 5.4 mm max.
- 2 Screws, used to fix PCB on stand off, have head dia of 6.0 mm max.
- 3 Washer, if used, to have dia of 6.5 mm max.

**For more information on these products consult: [tech.support@psbel.com](mailto:tech.support@psbel.com)**

**NUCLEAR AND MEDICAL APPLICATIONS** - Products are not designed or intended for use as critical components in life support systems, equipment used in hazardous environments, or nuclear control systems.

**TECHNICAL REVISIONS** - The appearance of products, including safety agency certifications pictured on labels, may change depending on the date manufactured. Specifications are subject to change without notice.
