SQSKCONNECTOR

Squib connectors

Conforming to ISO19072-4.

Features

Mating

Intelligent CPA adopted. It enables the connector to be locked securely and prevents incomplete mating on the assembly line resulting in improved connector retention force.

Terminal construction

The contact structure of three contact points is adopted, and the contact reliability is improved.

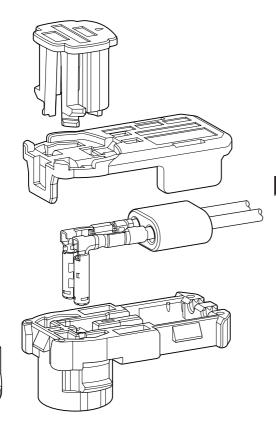

It is designed to prevent the deformation of contact area when processing wire harness by covering ferrule to spring contact area.

Scooping (kojiri) preventive construction

Using a shunt ring conforming to ISO 19072-4, the resistance to scooping (kojiri) insertion and withdrawal is improved.

●Noise suppression

Ferrite core provides simple and reliable noise suppression characteristics.

Specifications

- Current rating: 3 A AC, DC max.
- Temperature range: -40°C to +85°C

(including temperature rise in applying

electrical current)

- Insulation resistance: 100 M Ω min.
- Applicable wire: AVSS

0.3 mm², 0.5 mm²

FLRY-A

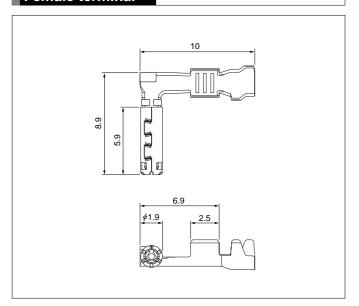

0.35 mm², 0.5 mm²

- * Compliant with ELV/RoHS.
- * Contact JST for details.
