

Note:

- 1,environmental Requirements: Complies with RoHS certification
- 2,Appearance Quality Requirements: No damage or cracking on the wire body; no material shortage or shrinkage at the molded parts
- 3,Electrical Quality Requirements: Free from short circuit, open circuit and mismatching defects

Technical Requirements

A. Electrical Performance

- 1, 100% of the finished products shall undergo electrical continuity testing, with no short circuit, open circuit, misalignment, poor contact or other abnormalities allowed.
- 2, Plating Sn length at the tail end shall be 3 mm.

Part: 145mm electronic wire

6	Jacket Material & Color	Environmentally friendly PVC, Black		
5	Core Material	UL1007-AWG22,Black, ROHS		
4	Type	/		
3	Salt Spray Requirement	12H		
2	Flexing Test Requirement	/		
1	OD	/
