

JOHANSON DIELECTRICS PART CHANGE NOTIFICATION (PCN)

PCN Date:	29 September 2021
Supplier Name:	Johanson Dielectrics
Supplier PCN Tracking # Customer Name	Site Mgmt Approval (prior to sending to customer) <i>John P. Ricardi</i>
PCN Effectivity Date:	Being Phased In Now
Description of Change:	New Johanson Part Number Format is being instituted. The existing part numbers will be phased out.
Reason for Change:	Johanson was out of options for new products and new product variations due to limitations of the old format.
Part Numbers Impacted:	See below

Johanson has instituted a new "Global Part Numbering" (GPN) system.

Only the part number is changing. The parts are produced with the exact same materials, manufacturing processes, manufacturing controls, dimensions, physical attributes and testing as the parts supplied with the legacy part numbers.

The GPNs will be phased in over the next several years and are planned to be completed by January 1, 2026.

We will continue to quote and accept orders with the current (legacy) part numbers throughout this period

Beginning January 1, 2022, all samples will be provided with the GPN.

Updates associated with this change will occur periodically.
