

Coaxial Cable

Features

- Coaxial cable assembly ideal for communications applications
- BNC plug to BNC Right Angle Plug
- RG58 cable 500mm

RS PRO Coaxial Cable

RS Stock No.: 2834806

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

- Coaxial Cables are commonly used for the Internal and external wiring of communication systems, instruments, and electronic devices as well as the connection of test and measurement systems.
- The RS Pro range of coaxial cable assemblies offer a highly reliable electrical connection for your given application.
- *Common applications include broadcast, communications, instrumentation, Mil/Aero, telecoms, automotive, heavy transportation and high-speed data.*

General Specifications

Cable Type	RG58
Connector A	Male BNC
Connector B	Male Right Angle BNC
Terminated/Unterminated	Terminated
Applications	Common applications include broadcast, communications, instrumentation, Mil/Aero, telecoms, automotive, heavy transportation and high speed data.

Electrical Specifications

Characteristic Impedance	50 Ohm
--------------------------	--------

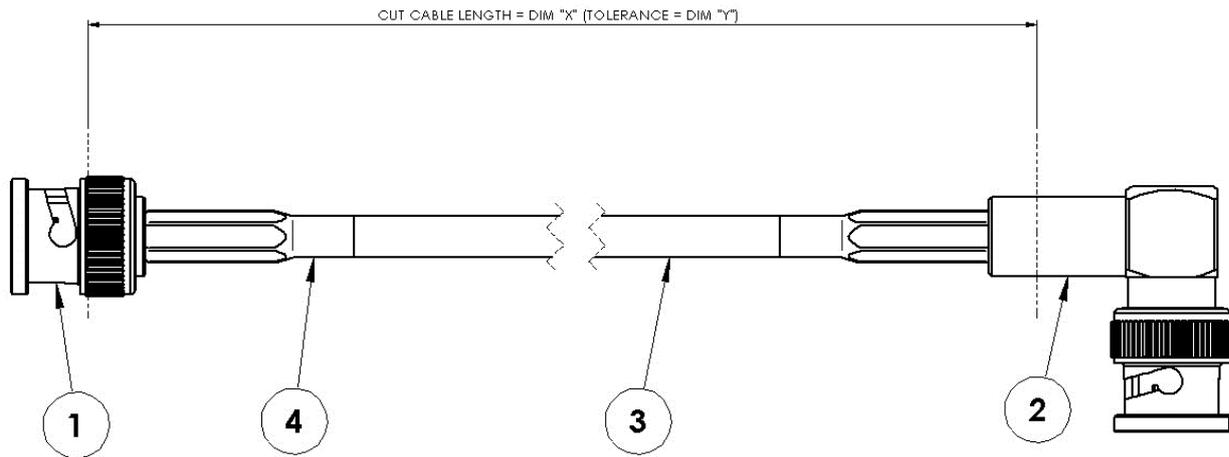

Mechanical Specifications

Item	Material	Diameter
Length		500mm
Centre Conductor	Tinned Copper	19/0.18mm
Dielectric	PE	2.95mm
Sheath / Jacket	PVC	4.95mm

Coaxial Cable

Approvals

Compliance/Certifications	CE / CSA / UL
Standards Met	RoHS3

Cable type: RG58

Cable length 500mm

Connector 1: BNC Plug

Connector 2: BNC Right Angle Plug
