2662698, 2662704

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

Category 5e cable is a twisted pair high signal integrity cable type often referred to as Cat5e. Most cables are unshielded, relying on the twisted pair design for noise rejection, some are shielded. Often used in computer networks such as Ethernet.

Crossover cables are designed for connecting two computers together without a switch (or linking switches together)

The cables are UL certified to CM(UL) C(UL) CMH E164469.

We have a wide variety of colours and lengths
