RS PRO Aluminium Perforated Metal Sheet 500mm x 500mm, 0.6mm Thick

RS Stock No.: 202-7861

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

- The metal sheet has a punched-hole pattern with holes measuring 1.2 mm in diameter, leaving an open area percentage of approximately 42%. It's made from non-magnetic aluminium material and has a selvedged border to prevent sharp edges. With a natural finish and an aesthetically pleasing 60° hole layout, it's suitable both for practical use and as a design element for modern interiors and exteriors. The sheet measures 500 mm x 500 mm and has a thickness of 0.6 mm.*
