RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

- *These push-tie mounts are devices used for organising and securing cables or wires in various applications. They're made from nylon 66, a durable and heat-resistant material, which makes them suitable for different environments and conditions. These mounts provide a convenient way to route and secure cables, keeping them tidy and preventing tangling or potential damage from loose wires.*
