

General Description:

The LWD3003AD5 uses trench technology and design to provide excellent $R_{DS(ON)}$ with low gate charge. It can be used in a wide variety of applications. The package form is PDFN5*6-8L, which accords with the ROHS standard and Halogen Free standard.

Features:

- Fast Switching
- Low Gate Charge and $R_{DS(ON)}$
- Low Reverse transfer capacitances

Applications:

- DC-DC Converter
- Portable Equipment
- Power Management

100% DVDS Tested

100% Avalanche Tested

Symbol	N-Ch	P-Ch	Units
V_{DSS}	30	-30	V
I_D	25	-18	A

- Lewa-Micro assumes no responsibility for equipment failures that result from using products at parameters that exceed, even momentarily, rated values (such as maximum ratings, operating condition ranges, or other parameters) listed in products specifications of any Lewa-Micro products described or contained herein.
- Specifications of any and all Lewa-Micro products described or contained herein stipulate the performance, characteristics, and functions of the described products in the independent state, and are not guarantees of the performance, characteristics, and functions of the described products as mounted in the customer's products or equipment. To verify symptoms and states that cannot be evaluated in an independent device, the customer should always evaluate and test devices mounted in the customer's products or equipment.
- Lewa-Micro strives to supply high-quality and high-reliability products. However, any and all semiconductor products have a certain probability of failure. It is possible that these probabilistic failures could give rise to accidents or events that could endanger human lives, that could give rise to smoke or fire, or that could cause damage to other property. When designing equipment, adopt safety measures so that these kinds of accidents or events cannot occur. Such measures including but not limited to protective circuits and error prevention circuits for safe design, redundant design, and structural design.
- To comply with the compliance requirements of relevant export control laws and regulations, if any Lewa-Micro product (including technical data and services) stated herein is subject to relevant export control laws and regulations, it is recommended that the customer apply for and obtain an export license from the competent authority in advance in accordance with the requirements of relevant laws, and do not conduct export activities without obtaining the license. If the customer fails to comply with the aforementioned compliance requirements, all legal liabilities arising therefrom shall be borne solely by the customer.
